

Why I recommend managed hosting for your WordPress site(s)

The price you pay for managed hosting is 100% worth it compared to bottom-of-the-barrel shared hosting solutions! Here are six reasons why managed hosting with Flywheel is the way to go:

EVERYTHING IS TAKEN CARE OF FOR YOU

Upgrades, security, migrations, you name it – they'll handle it. In the long run, this absolutely winds up saving you time, money, IT resources, and so much more.

YOUR SITE GETS ITS OWN DEDICATED RESOURCES

Flywheel puts your site on a dedicated VPS, whereas shared hosting is just that: a shared server, tied to a bunch of other sites that could be dealing with malware, performance issues, and more.

MANAGED HOSTING IS REALLY FAST

Flywheel tunes their servers for optimal WordPress performance and configures all the caching, so you don't have to set up caching plugins or worry about your site speed.

TOP-NOTCH SECURITY

Flywheel is on top of the latest security vulnerabilities and will proactively block threats whenever they can. And IF (and that's a big "if!") your site is somehow compromised, they'll fix it for free.

WE'VE GOT YOUR BACK

With Flywheel, you have the best support around via live chat, phone, or email. When you call, you'll get a real-live human on the other end.

IT'S EASY FOR YOU TO STAY INVOLVED!

Their platform is built to create a better workflow between the two of us. For example: we can transfer the billing of your site (without sharing passwords or credit card info)!

So, in a nutshell, all of this means you can stop worrying about the servers and the hosting and the hackers and your site performance and instead, spend that time running your business. Huzzah! :)
